A hydraulic press and its oil circuit: parts and functions

Look at the two pictures of the hydraulic press and its oil circuit. The left picture shows the oil tank, the pump unit and the return line, the right picture shows the valves and the press. Each picture has different numbers. The numbers show the parts in the order the process uses them. Match the names in the word box to the numbers. Then write in your own words what each part does.

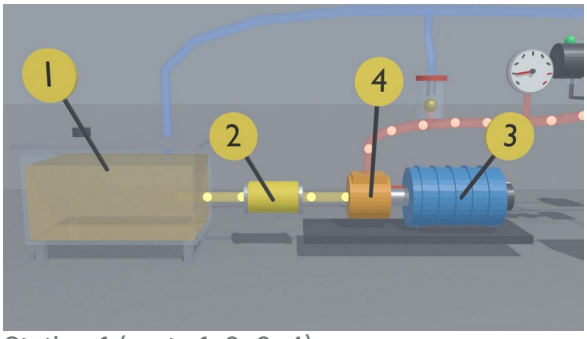

Hydraulic cylinder • Hydraulic pump • Pressure gauge • Reservoir • Directional control valve • Return filter • Electric motor • Pressure relief valve • Flow control valve • Suction filter

Parts and functions

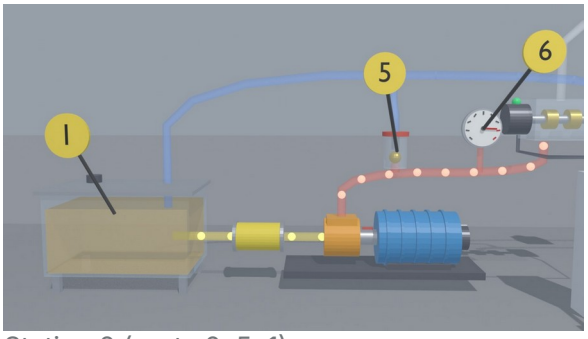

No.	Name of the part	What does it do?
1		
2		
3		
4		
5		
6		
7		
8		
9		
10		

Pictures of the six stations

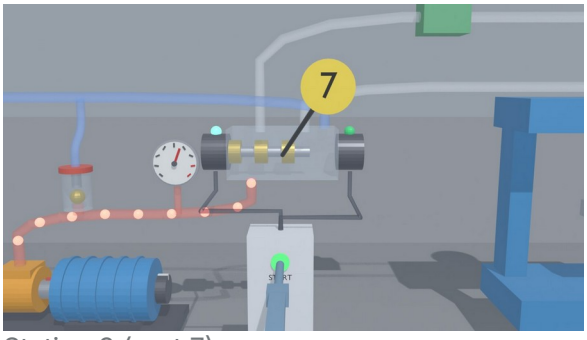

Each picture shows one step of the process. Use them to find the numbered parts. The numbers are the same as in the table on page 2.

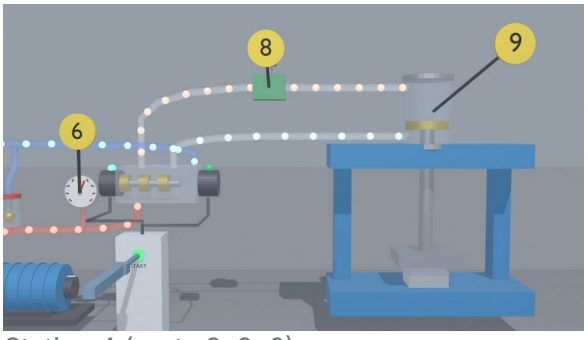

Station 1 (parts 1, 2, 3, 4)

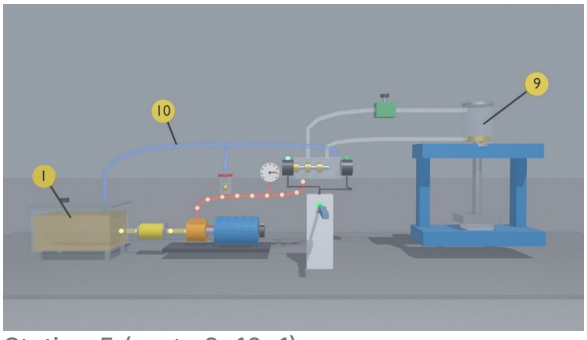

Station 2 (parts 6, 5, 1)

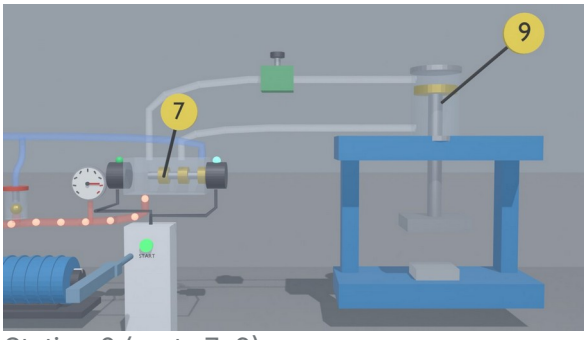

Station 3 (part 7)

Station 4 (parts 8, 9, 6)

Station 5 (parts 9, 10, 1)

Station 6 (parts 7, 9)
