# Sand casting of a metal part: parts and functions

Look at the two pictures of the foundry. The left picture shows the mold making area, the core table and the furnace (parts 1 to 5), the right picture shows the pouring station, the mold, the shakeout grid and the fettling station (parts 6 to 11). Each picture has different numbers. The numbers show the parts in the order the process uses them. Match the names in the word box to the numbers. Then write in your own words what each part does.

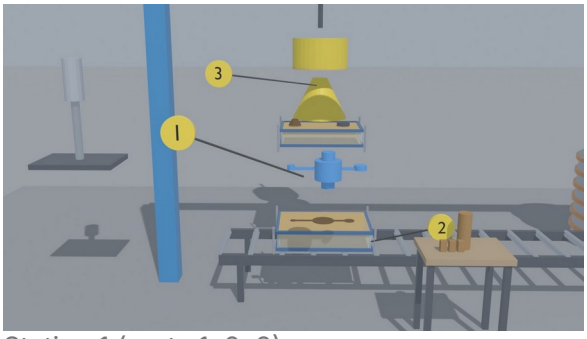

**Sprue • Molding sand • Shakeout grid • Pattern • Induction furnace • Fettling station • Flask • Runner • Core • Riser • Ladle**

## Parts and functions

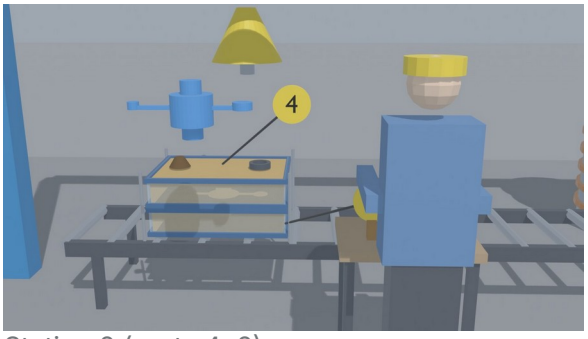

| No. | Name of the part | What does it do? |
|---|---|---|
| 1 | | |
| 2 | | |
| 3 | | |
| 4 | | |
| 5 | | |
| 6 | | |
| 7 | | |
| 8 | | |
| 9 | | |
| 10 | | |
| 11 | | |

# Pictures of the seven stations

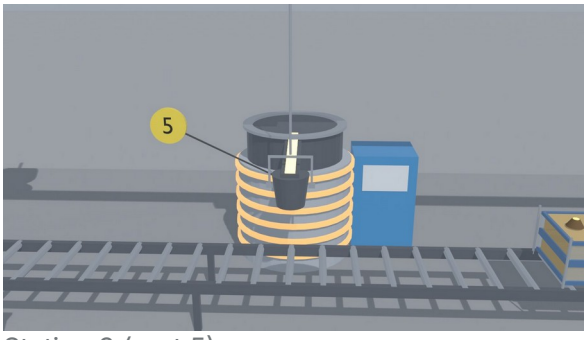

Each picture shows one step of the process. Use them to find the numbered parts. The numbers are the same as in the table on page 2.

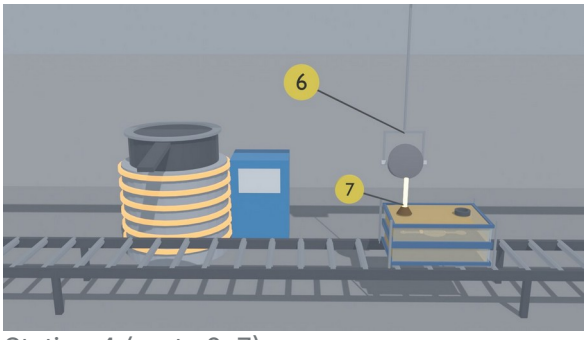

Station 1 (parts 1, 2, 3)

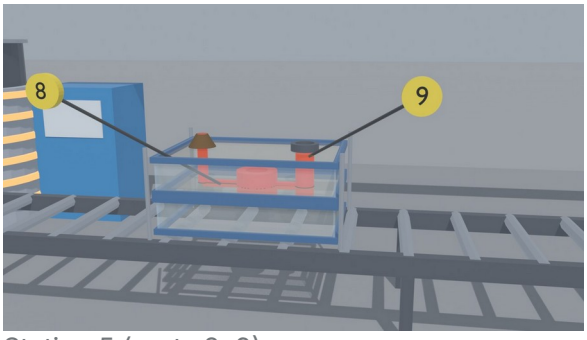

Station 2 (parts 4, 2)

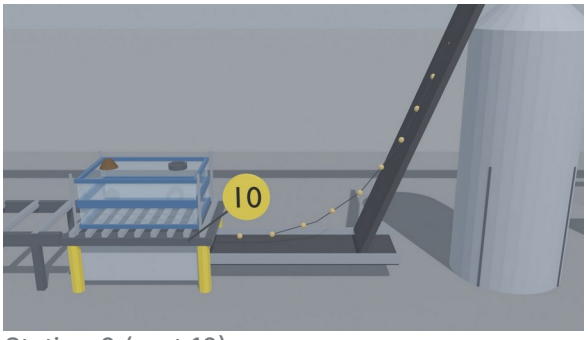

Station 3 (part 5)

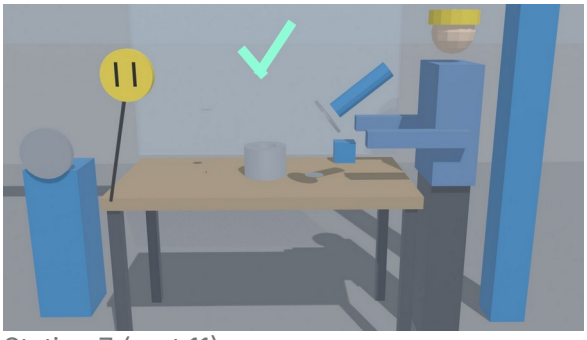

Station 4 (parts 6, 7)

Station 5 (parts 8, 9)

Station 6 (part 10)

Station 7 (part 11)
