Mobile robot navigation: parts and functions

Look at the picture of the warehouse and the robot. The numbers show the parts in the order the process uses them (top: the warehouse, bottom: the robot close up). Match the names in the word box to the numbers. Then write in your own words what each part does.

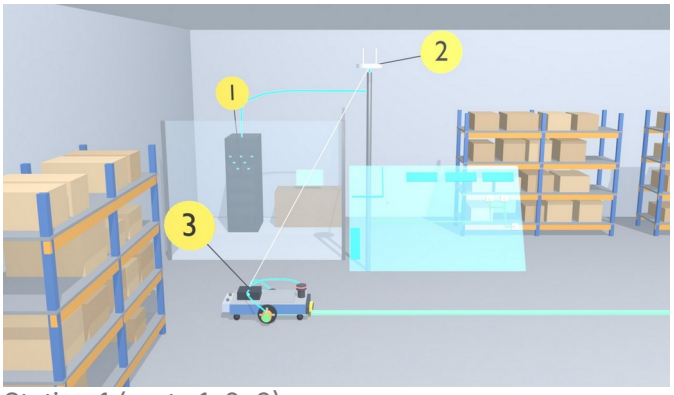

Battery • Lidar scanner • Safety scanner • Fleet manager • Charging station • Drive motors • Navigation computer • Lift unit • Wi-Fi access point • Wheel encoders
