The hydrogen car: parts and functions

Look at the two pictures of the hydrogen car. Both show the whole car, but each picture has different numbers (the car has a transparent body, so you can see the parts inside). The numbers show the parts in the order the process uses them. Match the names in the word box to the numbers. Then write in your own words what each part does.

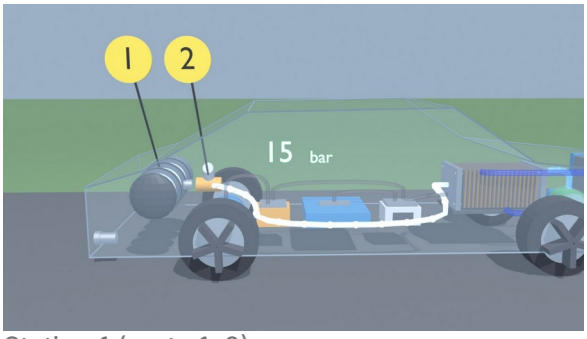

Battery • Radiator • Air compressor • Electric motor • Hydrogen tank • Exhaust • Coolant pump • Pressure regulator • DC/DC converter • Inverter • Fuel cell stack

Parts and functions

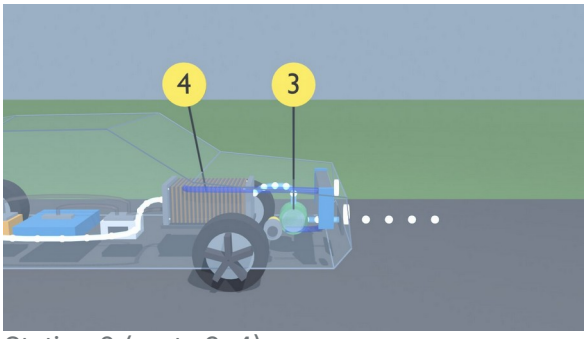

No.	Name of the part	What does it do?
1		
2		
3		
4		
5		
6		
7		
8		
9		
10		
11		

Pictures of the six stations

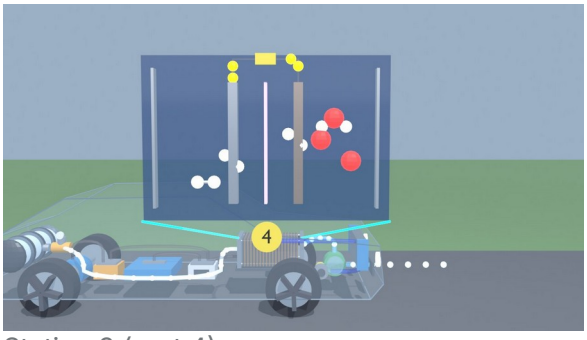

Each picture shows one step of the process. Use them to find the numbered parts. The numbers are the same as in the table on page 2.

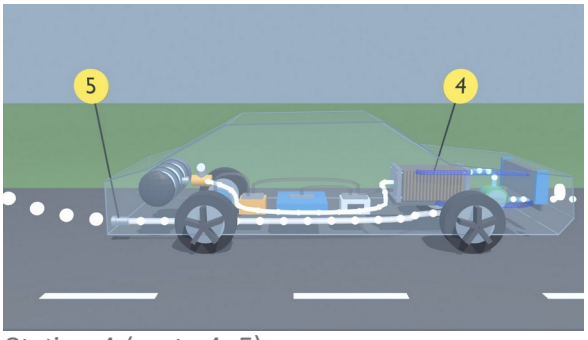

Station 1 (parts 1, 2)

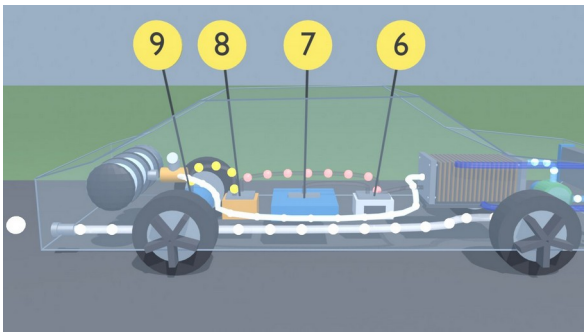

Station 2 (parts 3, 4)

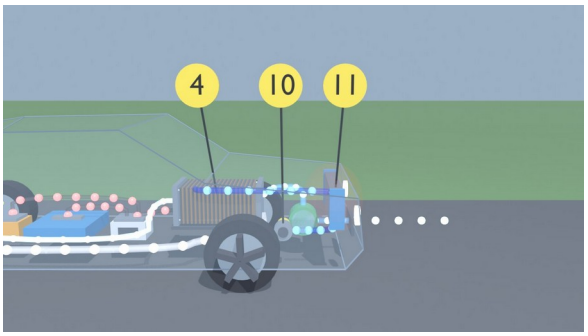

Station 3 (part 4)

Station 4 (parts 4, 5)

Station 5 (parts 6, 7, 8, 9)

Station 6 (parts 10, 11, 4)
